Emergency cases and backpacks

For use under extreme conditions

It was the innovation in all-round primary care of emergency patients: the ULM CASE, which Weinmann developed some 30 years ago. Thanks to its organizational clarity, customized set-up of equipment and robust construction, the ULM CASE remains one of the most important transport containers in emergency medicine.
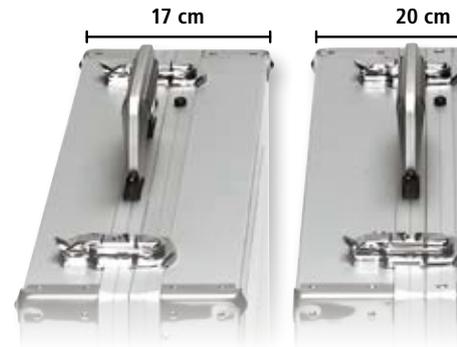

The emergency backpack from Weinmann offers you the same organizational clarity plus great stability and safe transport of your equipment. It combines the emergency case concept with the advantages of a backpack. So on the way to the scene of an emergency, both your hands are free.

medical technology

ULM CASE – The Classic

Developed more than 30 years ago, the emergency ULM CASE is still one of the most important transport containers in emergency medicine. Convince yourself of its clarity and robust construction and put together your own customized equipment.

17 cm   20 cm

ULM CASE I

WM 8840

- Variable compartment division in base with SpaceChips
- Permanent compartment division in cover
- Sleek design
- Ampoule strips in cover can be adjusted as needed

Aluminum case with plastic inserts, three SpaceChip dividers, two holders for oropharyngeal tubes and two ampoule strips, each with space for 13 ampoules.

Please order separately: extra ampoule strips, tension belts for oxygen cylinders, holder for OMNIVAC suction pump, holder for MEDUMAT and labels for respective equipment.

ULM CASE II

WM 8730

- Variable compartment division with SpaceChips in cover and base
- Cover opens on both sides (space-saving)
- Ampoule strips in cover can be adjusted as needed

Aluminum case with plastic inserts, six variable SpaceChip dividers, two holders for oropharyngeal tubes.
Please order separately: additional ampoule strips, tension belt for O_2 cylinders and labels, depending on equipment.

ULM CASE III

WM 8830

- Plenty of space in three sections
- Variable compartment divisions in base and cover
- Ampoule strips in roomy fold-out section can be adjusted as needed

Aluminum case with plastic inserts, six SpaceChip dividers, two holders for oropharyngeal tubes and swivelling and removable ampoule cassette with two ampoule strips, each with space for 11 ampoules.

23 cm

Special Cases

Do you need a container for a special area of use? Perhaps you need our ULM CASE Baby or a dressing box as per DIN 14142. Our handy special cases with the flexible internal dividers, ULM CASE small and the PARAMEDIC-BOX, offer you a range of possibilities.

SpaceChips
Interior dividers for cases

With SpaceChips you can divide up the interior of your case according to your needs.

ULM CASE small

ULM CASE Basis	WM 8635
ULM CASE Baby	WM 3693
ULM CASE Dressing	WM 8715

Aluminum case, anodized, with holder and inserts to accommodate all recommended devices and materials and ampoule strips for 21 ampoules

PARAMEDIC-BOX
WM 8380

■ The handy alternative with customized compartment division in base

Aluminum case with recessed interior compartment divisions, movable.

RESCUE-PACK – emergency backpack

The light and extremely robust emergency backpack by Weinmann combines the ULM CASE concept with the advantages of a backpack. RESCUE-PACK offers you clearly organized equipment and flexibility. With one hand free, you can carry other equipment or open doors on the way to the emergency scene. The backpack is the ideal equipment for emergency calls that are anything but routine, such as high-altitude or water rescues.

RESCUE-PACK

WM 9000

Please order belts separately for oxygen cylinders and suction pump.

RESCUE-PACK
WM 9025

RESCUE-PACK
WM 9000

RESCUE-PACK
WM 9033

Advantages and Features:

- Hands are free for greater safety
- As flexible as a backpack, as organized as a case
- Available in gray and red, other colors upon request
- Splash-water protected

- With practical AED window to check status LED
- Highly visible with reflective strips
- Made of high-quality, robust materials
- Intelligent system maintains order with optional accessories bag

RESCUE-PACK I

WM 9060

Please order belts separately for oxygen cylinders and suction pump.

Standard equipment

Ampoule strips, oxygen device, resuscitator, ventilation masks – clean and well organized in an aluminum case or in the flexible RESCUE-PACK backpack. Simply choose between the standard basic equipment and complete equipment.

ULM CASE I
WM 5250

Basic Equipment, Standard

Available in ULM CASE I, II, III and RESCUE-PACK.
Please note that space for ampoules, oxygen device and pressure reducer can vary, depending on the container.

consisting of:

- Oxygen device (depending on container) with 0.8-liter oxygen cylinder
- Pressure reducer (depending on container)
- Set of Standard labels (WM 15505)
- Tension belt for O_2 cylinders, 2 pieces (WM 15141)
- COMBIBAG resuscitator for adults and children (WM 11000)
- Oxygen reservoir for COMBIBAG (WM 11052)
- Set of ventilation masks with inflatable seal of silicone (WM 15481)
- Set of Rendell-Baker ventilation masks of silicone (WM 15482)
- Set of oropharyngeal tubes (Guedel) (WM 15483)
- Set of nasopharyngeal tubes (Wendl) (WM 15484)
- MANUVAC suction pump (WM 10800)
- Set of suction catheters (WM 15051)

Differences in contents of "Basic Equipment, Standard "

ULM CASE I
WM 5250

Space for 36 ampoules, oxygen device WM 3675 with 0.8-liter oxygen cylinder and permanently set OXYWAY Fix I pressure reducer

ULM CASE II
WM 8720

Space for 33 ampoules, oxygen device WM 3607 with 0.8-liter oxygen cylinder and infinitely adjustable OXYWAY Fine I pressure reducer

ULM CASE III
WM 8820

Space for 55 ampoules, oxygen device WM 3607 with 0.8-liter oxygen cylinder and infinitely adjustable OXYWAY Fine I pressure reducer

RESCUE-PACK

WM 9010

Ampoule tray with space for 22 ampoules and padded cover, oxygen device WM 3607 with 0.8-liter oxygen cylinder and infinitely adjustable OXYWAY Fine I pressure reducer, tension belt for MANUVAC (WM 1769)

For complete technical data please refer to the product data sheets or instruction for use at weinmann.de

RESCUE-PACK
WM 9020

Complete Equipment, Standard

Available in ULM CASE I, II, III and RESCUE-PACK.
Please note that space for ampoules, oxygen device and
pressure reducer can vary, depending on the container.
Consisting of: identical to Basic Equipment,
Standard (page G 9) but also with:

- Set of small medical products (WM 15485)
- Intubation set (WM 15486)
- Laryngoscope, metal, with two (2) McIntosh blades
  (Sizes 1 and 3), with baterries (WM 5105)
- Set of tracheal tubes for one-time use (WM 15075)
- Sphygmomanometer (blood pressure measurement device)
  (WM 5206), stethoscope (WM 5207)
- Pressure infusor bag with gauge (WM 5201)

Differences in contents of "Complete Equipment, Standard "

ULM CASE I
WM 5308

Space for 36 ampoules, oxygen device WM 3675 with 0.8-liter
oxygen cylinder and permanently set OXYWAY Fix I pressure
reducer

ULM CASE II
WM 8725

Space for 33 ampoules, oxygen device WM 3607 with 0.8-liter
oxygen cylinder and infinitely adjustable OXYWAY Fine I pres-
sure reducer

ULM CASE III
WM 8825

Space for 55 ampoules, oxygen device WM 3607 with 0.8-
liter oxygen cylinder and infinitely adjustable OXYWAY Fine I
pressure reducer; additionally, set of disposable materials
(WM 15487)

RESCUE-PACK
WM 9020

Ampoule tray with space for 22 ampoules and padded cover,
oxygen device WM 3607 with 0.8-liter oxygen cylinder and
infinitely adjustable OXYWAY Fine I pressure reducer, tension
belt for MANUVAC (WM 1769)

Please note:

The equipment sets contain no medications and no disinfectants.

Respiratory equipment

Our Respiration equipment is available with oxygen dosages or oxygen-driven secretion suction as basic or complete equipment. Of course we also offer the variant Respiration equipment as per DIN 13232-N (Respiration).

ULM CASE I
WM 8620

Basic Equipment, Respiration

with oxygen dosage setting
Available in ULM CASE I, II, III and RESCUE-PACK.
Please note that the space for ampoules can vary,
depending on the container.

Consisting of:

- Oxygen device WM 3608 with 2.0-liter oxygen cylinder
- Infinitely adjustable OXYWAY Fine I pressure reducer
- Set of Respiration labels, German (WM 15515)
- Tension belt for O_2 cylinders, two (2) pieces (WM 15141)
- COMBIBAG resuscitator for adults and children (WM 11000)
- Oxygen reservoir for COMBIBAG (WM 11052)
- Set of ventilation masks with inflatable seal of silicone (WM 15481)
- Set of Rendell-Baker ventilation masks of silicone (WM 15482)
- Set oropharyngeal tubes (Guedel) (WM 15483)
- Set nasopharyngeal tubes (Wendl) (WM 15484)
- MANUVAC suction pump (WM 10800)
- Set of suction catheters (WM 15051)

Equipment for special cases

In addition to standard sets such as Respiration and Circulation, we also offer special combinations. Among them are the ULM CASE Basis (basic and complete equipment) and two variants of the PARAMEDIC-BOX.

PARAMEDIC-BOX
WM 8370

Basic Equipment

PARAMEDIC-BOX
WM 8390

Consisting of:

- PARAMEDIC-BOX rescue case, empty (WM 8380)
- COMBIBAG resuscitator for adults and children (WM 11000)
- Set of ventilation masks with inflatable seal of silicone (WM 15481)
- Set of Rendell-Baker ventilation masks of silicone (WM 15482)
- MANUVAC suction pump (WM 10800)
- Suction set of disposable materials (WM 15051)

Complete Equipment

PARAMEDIC-BOX
WM 8370

Consisting of: Content same as Basic Equipment, PARAMEDIC-BOX, plus:

- Two-part ampoule tray with strips for 28 ampoules and accessories (WM 8388)
- PEEP valve (WM 3215)
- Set of oropharyngeal tubes (Guedel) (WM 15483)
- Set of nasopharyngeal tubes (Wendl) (WM 15484)
- Laryngoscope, metal with two McIntosh blades (Sizes 1 and 3), with batteries (WM 5105)
- Set of tracheal tubes for one-time use (WM 15075)
- Pressure infusor bag with gauge (WM 5201)
- Set of small medical products (WM 15485)
- Intubation set (WM 15486)

For complete technical data please refer to the product data sheets or instruction for use at weinmann.de

ULM CASE Basis with
complete equipment
WM 8630

The equipment sets contain no medications and no disinfectants.

Basic Equipment

ULM CASE, BASIS
WM 8625

Consisting of:

- ULM CASE Basis, empty (WM 8635)
- Oxygen device (WM 3602)
- Stretch belt for cylinders (WM 8656)
- Inhalation mask with breathing bag and connection hose (WM 1422)
- COMBIBAG resuscitator for adults and children (WM 11000)
- Set of ventilation masks with inflatable seal of silicone (WM 15481)
- Set of Rendell-Baker ventilation masks of silicone (WM 15482)
- Set of oropharyngeal tubes (Guedel) (WM 15483)
- Set of nasopharyngeal tubes (Wendl) (WM 15484)

Complete Equipment

ULM CASE, BASIS
WM 8630

Consisting of:
Same content as Basic Equipment, BASIS, plus:

- Sphygmomanometer (WM 5206)
- Stethoscope (WM 5207)
- Set of small medical products (WM 15485)
- Injection set (WM 15090)

Airway-Management Sets

Set of ventilation masks with inflatable seal of silicone
WM 15481
Consists of one ventilation mask each:

- For adults, Size 5 (WM 5074)
- For children and juveniles, Size 3 (WM 5082)

Set of Rendell-Baker ventilation masks of silicone
WM 15482
Consists of one ventilation mask each:

- For children from three to 12 years (WM 5063)
- For children from one to three years (WM 5062)
- For small children up to one year (WM 5061)
- For infants (WM 5060)

Intubation Set
WM 15486
Consists of one piece each of:

- Magill intubation forceps (small)
- Magill intubation forceps (large)
- Mouth wedge
- Blocker syringe (disposable, 10 ml)
- One roll of adhesive tape (A 5 x 2.5 DIN 13019)
- Pean clamp

Set of tracheal tubes for one-time use
WM 15075

- One each tracheal tube with connector, without balloon: Ch. 10/Ø 2.5 mm
  Ch. 16/Ø 4.0 mm
- One each tracheal tube with connector, with balloon: Ch. 20/Ø 5.0 mm
  Ch. 26/Ø 6.5 mm
  Ch. 30/Ø 7.5 mm

Set of oropharyngeal tubes (Guedel)
WM 15483
consists of one each of the following:

- For adults, Size 3
- For juveniles, Size 2
- For children, Size 1
- For small children, Size 0
- For infants, Size 000

Set of nasopharyngeal tubes (Wendl)
WM 15484
consists of one each of the following:

- Ch. 26
- Ch. 30

Set of disposable suction catheters
WM 15051
Consists of three each of the following:

- Ch. 06/Ø 2 mm
- Ch. 10/Ø 3 mm
- Ch. 12/Ø 4 mm

DIN Sets

DIN 13232 Respiratory Set
WM 15488
consists of:

- Three suction catheters each of the following:
  Ch. 06/Ø 2 mm
  Ch. 10/Ø 3 mm
  Ch. 12/Ø 4 mm
- One oropharyngeal tube each for:
  Adults
  Juveniles
  Children
- One nasopharyngeal tube each:
  Ch. 26
  Ch. 30
- One Magill intubation forceps (large)
- One each of disposable tracheal tube:
  – Tracheal tube with connector, without balloon: Ch. 14/Ø 3.5 mm
  Ch. 16/Ø 4,0 mm
  Ch. 18/Ø 4.5 mm
  – Tracheal tube with connector, with balloon: Ch. 20/Ø 5.0 mm
  Ch. 24/Ø 6.0 mm
  Ch. 28/Ø 7.0 mm
  Ch. 30/Ø 7.5 mm
  Ch. 32/Ø 8.0 mm
  Ch. 34/Ø 8.5 mm
- One insertion guide for each tracheal tube: Size 1 Ch. 16–20
  Size 2 Ch. 22–30
  Size 3 Ch. 32–46
- Blocker syringe (disposable, 10 ml)
- One roll of adhesive tape A 5 x 2.5 DIN 13019
- two Pean clamps

Circulation Set as per DIN 13232
WM 15489
Consists of one piece each, unless otherwise specified:

- Small lamp for examination of pupils
- Reflex hammer
- Package of blood-sugar test strips
- One-hand tourniquet
- Two permanent venous catheters each: Size 2.2 mm
  Size 1.1 mm
