

The HEINE range of proctological instruments includes both disposable and reusable instruments either with the 6V lamp handle or a range of Fiber Optic Projectors and Fiber Optic cable.

Disposable tubes eliminate cross-infection and cleaning time. Translucent tube wall and distal annular light exit provide reflection free, homogenous illumination. More than 5x as bright as other disposable tubes. Quick Connect System fits most popular instrument heads. Graduated in centimeters for clear indication of insertion length. Cost effective.

## HEINE UniSpec® Disposable Tubes

- ✦ **Disposable.** No cross-infection.
- ✦ **No cleaning required.** Saves time.
- ✦ **Moulded in patient-friendly thermoplastic.**  
No cold sensation on insertion.
- ✦ **Light transmission through the tube wall. Distal annular light exit.**  
Bright, homogeneous illumination of the area examined, reflex reduction.
- ✦ **Graduated in cm (inside the tube for patient comfort).** Indication of insertion length.

### UniSpec disposable anosopes (85 x 20 mm)

Pack of 25 disposable anosopes	E-03.19.925
Box of 100 (4 packs of 25) anosopes	E-03.19.911

### UniSpec disposable proctoscopes (130 x 20 mm)

Pack of 25 disposable proctoscopes	E-03.19.825
Box of 100 (4 packs of 25) proctoscopes	E-03.19.811

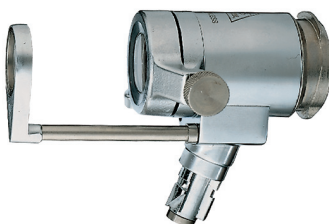

### UniSpec disposable sigmoidoscopes (250 x 20 mm)

Pack of 25 disposable sigmoidoscopes	E-03.18.825
Box of 100 (4 packs of 25) sigmoidoscopes	E-03.18.811

## Instrument head for HEINE UniSpec® tubes

Illumination by fiber optic cable and projector, lamp handle or illumination adaptor (X-02.98.002).

- ✦ **Annular Fiber Optic illumination.** Bright, reflex-free illumination.
- ✦ **Magnifying lens 1,5x.** High-resolution image.
- ✦ **Hinged viewing window with insufflation port.** Improved vision by insufflation.
- ✦ **Stainless Steel.**

### Instrument head for UniSpec disposable tubes

Instrument head for disposable tubes, complete with viewing windows and swivel lens 1,5x	E-03.18.100
Instrument head without accessories	E-03.18.098
Viewing window only	E-03.18.099
Swivel lens 1,5x (only for sigmoidoscope)	E-03.18.096
Swivel lens 1,8x (only for proctoscope and anoscope)	E-03.19.099

## HEINE Anoscope/Proctoscope illumination head

For 2,5V or 3,5V or Fiber Optic illumination with Fiber Optic projector and cable.

- ∴ **One single illumination head for all the tubes shown on this page.**  
Very practical and excellent value.
- ∴ **A wide range of tubes with either direct or 90° direction of view available.**  
Many different diagnostic and treatment methods are possible.
- ∴ **Tubes can be rotated through 360°.** Select the ideal position for treatment or examination.
- ∴ **Viewing window and swivel lens both offer 2x magnification.**  
High-resolution image.
- ∴ **Smooth, rounded surface.** Easy to clean. F.O. version can be cleaned with conventional disinfectants.

Illumination head	2.5 V	3.5 V	F.O.
complete with swivel lens and viewing window	<b>E-01.19.101</b>	<b>E-02.19.101</b>	<b>E-03.19.120</b>
Illumination head without accessories	<b>E-01.19.102</b>	<b>E-02.19.102</b>	<b>E-03.19.121</b>
XHL Xenon Halogen spare bulb	<b>X-01.88.040</b>	<b>X-02.88.051</b>

Viewing window, only			<b>E-00.19.104</b>

## Tubes with straight direction of view

60x22 mm

120x22 mm

Anoscope/Proctoscope with proximal illumination.

- ∴ **Distal end of tube angled.** Assures a good view and easy access with instruments.
- ∴ **All-metal construction.** Easy to clean and disinfect with conventional solutions.

### Tubes with straight direction of view

<b>Anoscope</b> tube 60x22 mm dia., complete with obturator	<b>E-00.19.111</b>
Tube only, without obturator	<b>E-00.19.112</b>
Obturator only	<b>E-00.19.113</b>
<b>Proctoscope</b> tube 120 x22 mm dia., complete with obturator	<b>E-00.19.107</b>
Tube only, without obturator	<b>E-00.19.108</b>
Obturator only	<b>E-00.19.109</b>

## Tubes with 90° direction of view (Blond)

100x20 mm

130x25 mm

Proctoscope with proximal illumination.

- ∴ **Polished metal viewing mirror.** Tough, unbreakable.
- ∴ **End-piece with mirror detachable.** Easy to clean, disinfect or sterilize.

### Proctoscope Tubes

Proctoscope tube, 90° direction of view, 130x25 mm dia.	<b>E-00.19.105</b>
Proctoscope tube, 90° direction of view, 100x20 mm dia.	<b>E-00.19.114</b>

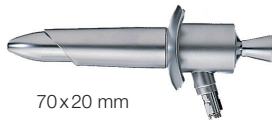

## HEINE F.O. Anoscopes with annular Fiber Optic illumination

Illumination by Fiber Optic cable and projector, lamp handle or illumination adaptor (X-02.98.002).

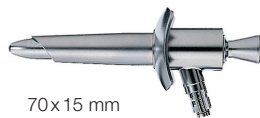

- ∴ **Three different diameters: 15 mm, 20 mm and 25 mm.** Useful range of sizes.
- ∴ **Annular Fiber Optic illumination.** Bright illumination of the area to be examined.
- ∴ **Angled tube-end.** Ensures a good view and easy access with instruments.
- ∴ **Rounded proximal shield.** Easy insertion and rotation.
- ∴ **Tube can be dismantled.** Easy to clean and disinfect with conventional solutions.
- ∴ **Stainless steel.** Durable.

## HEINE F.O. Proctoscopes with distal annular illumination

Illumination by Fiber Optic cable and projector, lamp handle or illumination adaptor (X-02.98.002).

- ∴ **Distal annular Fiber Optic (F.O.) illumination.** Bright, reflex-free illumination.
- ∴ **Magnifying lens 1,8x magnification.** High-resolution image.
- ∴ **Hinged viewing window with insufflation port.** Vision can be improved by insufflation.
- ∴ **Angled tube-end.** Improves vision and access.
- ∴ **End-piece can be unscrewed.** Easy to clean and disinfect with conventional solutions.
- ∴ **Stainless steel.** Durable.

130 x 20 mm

Proctoscope	F. O.
Proctoscope 130x20 mm dia., complete with obturator, viewing window, swivel lens and replacement end-piece	
Proctoscope tube without accessories	<b>E-03.19.213</b>
Obturator only	<b>E-03.19.013</b>

Swivel lens 1,8x	<b>E-03.19.099</b>

HEINE F.O. Sigmoidoscopes with distal annular illumination

Illumination by Fiber Optic cable and projector, lamp handle or illumination adaptor (X-02.98.002).

- ∴ Available in various sizes: 300 x 20 mm, 250 x 20 mm, 200 x 20 mm, 250 x 16 mm, 200 x 11.4 mm. Sizes suitable for most patients of all ages.
- ∴ Distal annular Fiber Optic (F.O.) illumination. Bright, reflex-free illumination.
- ∴ Swivel lens with 1,5x magnification. High-resolution image.
- ∴ Opening viewing window with insufflation port. Vision can be improved by insufflation.
- ∴ Graduated in cm. Indication of insertion length.
- ∴ Plastic end-piece. Insulated.
- ∴ End-piece can be unscrewed. Easy to clean and disinfect with conventional solution.
- ∴ Stainless steel. Durable.

## HEINE Spreadable Anal Speculum

The HEINE spreadable anal speculum is particularly useful for anal examinations in clinic or practice. The speculum can be fixed in any position by an adjuster screw. It is also supplied with a 2.5 V or 3.5 V XHL Xenon Halogen illumination head, which is a simple clip-on piece. The bright, white XHL Xenon Halogen light illuminates the anal cavity and simplifies the diagnosis and treatment of pathological conditions in this area.

- ∴ **All-metal construction (except illumination head).** Durable, long-lasting.
- ∴ **Easy to dismantle and assemble.** Simplifies sterilization.
- ∴ **Illumination head clips on.** Simple, convenient.
- ∴ **2.5 V or 3.5 V XHL Xenon Halogen Technology.** Bright, white light.

Spreadable Anal Speculum	2.5 V	3.5 V
with illumination head	<b>E-01.19.401</b>	<b>E-02.19.401</b>
Illumination head	<b>E-01.19.410</b>	<b>E-02.19.410</b>
XHL Xenon Halogen spare bulb	<b>X-01.88.035</b>	<b>X-02.88.044</b>
Spreadable anal speculum only		<b>E-00.19.400</b>

## Biopsy Forceps

- ∴ **Stainless steel.** Durable, easy to clean and disinfect and sterilize.
- ∴ **Hand-finished cutting edges.** Superb, smooth cut.
- ∴ **Ergonomically-formed handle.** Comfortable to hold.
- ∴ **Shaft can be rotated through 360°.** Allows the cutting jaws to be positioned conveniently.
- ∴ **Interchangeable shafts.** Choice of 4 different shafts.

Biopsy Forceps	
Biopsy forceps with straight jaws, 430 mm working length	<b>E-00.18.921</b>
same, with jaws angled at 30°	<b>E-00.18.922</b>

Shaft, ditto with angled jaws	<b>E-00.18.912</b>
Shaft 350 mm working length with straight jaws	<b>E-00.18.913</b>
Shaft, ditto with angled jaws	<b>E-00.18.914</b>

## Telescope

For use with proctoscope and rectoscope with distal illumination and with disposable tubes.

- ∴ **Superb prismatic optical system with colour-corrected lenses.** Upright image in true colour.
- ∴ **Magnification 3–5.5x.** Excellent resolution.
- ∴ **Hinged clip-fitting.** Does not hinder instrumentation.

Telescope

E-00.18.908

## Rubber Insufflation Bulb

Rubber insufflation bulb

E-00.18.105

## Sponge Holder

- ∴ **High quality design in stainless steel.** Easy to clean, disinfect and sterilize.

Sponge holder 400 mm working length

E-00.18.906

## Suction Tube

A sliding clip attaches the suction tube to the instrument head.

- ∴ **Stainless steel.** Easy to disinfect and sterilize.

Suction tube 400 mm working length

E-00.18.907

### Anoscope instrument kit ATE

An attractively-priced kit, recommended for diagnosis and therapy of haemorrhoids.

- :- **Contents:** Instrument head for UniSpec disposable tubes with viewing window and swivel lens 1.5x.
- Pack of 25 UniSpec anoscope tubes 85 mm.
- Plug-in transformer E 7 with lamp handle, switch and bulb.

<b>Anoscope instrument kit ATE</b>	6 V
Complete Anoscope instrument kit ATE	<b>E-95.16.510</b>
XHL Xenon Halogen spare bulb	<b>X-04.88.060</b>

### Sigmoido-proctoscope kit RTE

Inexpensive but complete kit of instruments for routine rectal examination.

- :- **Contents:** Instrument head for UniSpec disposable tubes with viewing window and swivel lens 1.5x.
- Pack of 25 UniSpec sigmoidoscope tubes 250 mm.
- Pack of 25 UniSpec proctoscope tubes 130 mm.
- Pack of 25 UniSpec anoscope tubes 85 mm.
- Sponge holder.
- Insufflation bulb.
- Plug-in transformer E 7 with lamp handle, switch and bulb.

<b>Sigmoido-proctoscope kit RTE</b>	6 V
Complete Sigmoido-proctoscope kit RTE	<b>E-95.16.501</b>
XHL Xenon Halogen spare bulb	<b>X-04.88.060</b>

## Sigmoidoscope/Proctoscope Kit RE 4000

This kit is similar to RTE but features even better illumination by Fiber Optic projector HK 4000.

### • Contents:

Instrument head for UniSpec disposable tubes with viewing window and swivel lens 1.5x.  
Pack of 25 UniSpec sigmoidoscope tubes 250 mm.  
Pack of 25 UniSpec proctoscope tubes 130 mm.  
Pack of 25 UniSpec anoscope tubes 85 mm.  
Sponge holder.  
Insufflation bulb F.O. projector HK 4000 and Fiber Optic cable.

<b>Sigmoidoscope/Proctoscope Kit RE 4000</b>	F.O.
Complete sigmoidoscope/proctoscope kit RE 4000	<b>E-96.15.501</b>
XHL Xenon Halogen spare bulb	<b>Y-96.15.103</b>

## Sigmoidoscope/Proctoscope Kit RD 4000

Classic set with fiber optic light. Suitable for deeper examination with 300 mm sigmoidoscope.

### • Contents:

Sigmoidoscope 300 mm x 20 mm dia. with obturator, viewing window, swivel lens and spare end-cap.  
Proctoscope 130 mm x 20 mm dia. with obturator, viewing window, swivel lens and spare end-cap.  
Suction tube.  
Sponge holder.  
Insufflation bulb.  
F.O. projector HK 4000 and Fiber Optic cable.

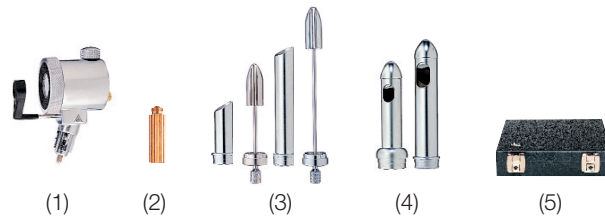

<b>Sigmoidoscope/proctoscope kit RD 4000</b>	F.O.
Complete sigmoidoscope/proctoscope kit RD 4000	<b>E-96.15.600</b>
XHL Xenon Halogen spare bulb	<b>Y-96.15.103</b>

## HEINE Proctology Sets

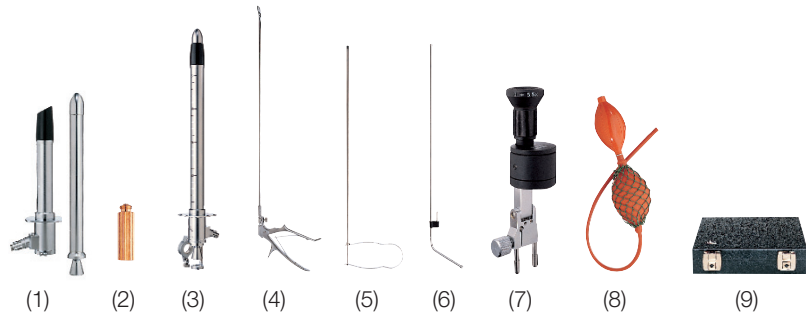

### Set A

Composed of:  
Anoscope/proctoscope head (1), spare bulb (2),  
Anoscope/proctoscope tubes with straight view (3)  
Tubes with 90° angle of view (Blond) (4) and hard case E-67.00.000 (5).

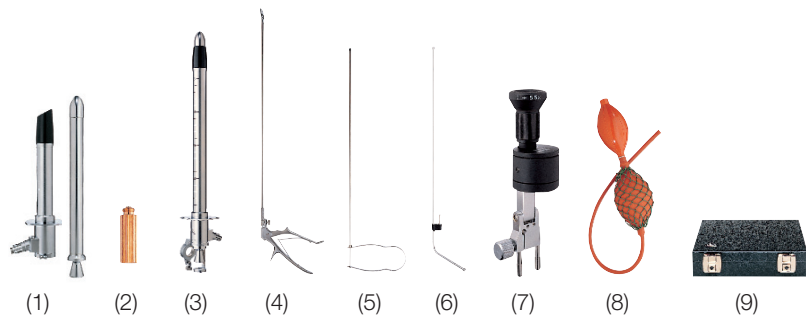

### Set B

Composed of:  
F.O. proctoscope complete with obturator (1), spare bulb (2),  
F.O. sigmoidoscope complete with obturator **300 x 20 mm** (3),  
biopsy forceps with straight jaws **430 mm** (4), sponge holder (5), suction tube (6),  
telescope (7), insufflation bulb (8) and hard case E-66.00.000 (9).

### Set C

Composed of:  
F.O. proctoscope complete with obturator (1), spare bulb (2),  
F.O. sigmoidoscope complete with obturator **250 x 20 mm** (3),  
biopsy forceps with straight jaws **350 mm** (4), sponge holder (5), suction tube (6),  
telescope (7), insufflation bulb (8) and hard case E-66.00.000 (9).

## Mader Proctology Sets

### Proctoscope set with battery handle.

**∴ Contents:**

- E-01.19.132 Proctoscope illumination head 2.5 V.
- E-00.19.114 Blond proctoscope tube 100/20 mm with lateral window.
- X-01.99.118 BETA 2.5 V battery handle.
- X-01.88.040 XHL Xenon Halogen spare bulb 2.5 V.

Mader proctoscope set	2.5 V
Proctoscope set with battery handle	<b>E-219.10.118</b>

### Proctoscope set with 3.5V BETA NT rechargeable handle and NT 200 charger.

**∴ Contents:**

- E-02.19.132 Proctoscope illumination head 3.5 V.
- E-00.19.114 Blond proctoscope tube 100/20 mm with lateral window.
- X-02.99.420 NT 200 charger with 3.5 V BETA NT rechargeable handle.
- X-02.88.051 XHL Xenon Halogen spare bulb 3.5 V.

Proctoscope set with 3.5 V BETA NT rechargeable handle and NT 200 charger	3.5 V
	<b>E-219.20.420</b>

### Procto-sigmoidoscope set with 3.5V BETA NT rechargeable handle and NT 200 charger.

**∴ Contents:**

- E-02.19.132 Proctoscope illumination head 3.5 V.
- E-03.18.225 Fiber optics sigmoidoscope, 250 x 20 mm with obturator and accessories
- E-00.19.114 Blond proctoscope tube 100/20 mm with lateral window
- E-00.18.906 Sponge holder
- X-02.98.002 3.5 V illumination adaptor
- X-02.99.420 NT 200 charger with 3.5 V BETA NT rechargeable handle
- X-02.88.051 XHL Xenon Halogen spare bulb 3.5 V for E-02.19.132
- X-02.88.078 XHL Xenon Halogen spare bulb for X-02.98.002

Procto-sigmoidoscope set with 3.5 V BETA NT rechargeable handle and NT 200 charger	3.5 V
	<b>E-218.20.420</b>

Rubber insufflation bulb (not included in set)	<b>E-00.18.105</b>
--	--------------------

To order HEINE sets with 3.5 V BETA handle with Li-ion battery technology, use the number "27" in the voltage designation, e.g. E-219.27.420 for Proctoscope set with BETA NT handle and NT 200 charger.

230V is the standard mains voltage. If a different voltage is required, e.g. 120V, please specify when ordering.
