MIDMARK 630 UNIVERSAL POWER PROCEDURES TABLE

What do you want in a procedures table?

- A functional table that's efficient and easy-to-use, improving your office's productivity
- A comfortable table for your patients that will minimize anxiety and position as clinically necessary
- 19-inch low height to provide optimal accessibility, improving safety while maintaining your patient's dignity
- 40-inch high height to position the patient to your requirements, allowing the best possible care while saving your back for a long career
- Great looking to build a positive reputation for your practice

The Midmark 630 Power Procedures Table delivers the highest quality care to your patients, staff and you.

The Midmark 630 provides m

To help keep you and your staff fresh and alert all day, the Midmark 630 does the heavy work. Full eight-way power, an essential low height, unprecedented patient comfort and a multitude of efficiency features significantly improve your practice, making the Midmark 630 the table of choice. Today's patient expects to have a comfortable experience while undergoing one of life's more uncomfortable experiences, visiting the physician for a minor procedure. With a low height of 19 inches and an exclusive Premium Comfort System™, the Midmark 630 provides easy access for patients who are pregnant, elderly, or have disabilities. This drives efficiency into your practice by enabling patients to access the table themselves, helping you and your staff position the patient quickly and efficiently. With countless standard features and over 30 accessories, Midmark universal power procedures tables satisfy your needs unlike any other table. Anywhere.

Soft Headrest
Multi-density headrest with a soft touch and relaxing contours.

Automatically Extendible Foot Section
Midmark's exclusive extendible foot section effortlessly places the patient in the most comfortable position automatically!

Premium Comfort System™
Unique elastomeric material stretched over a seat cut-out designed to enhance patient comfort... a "chair-like" feel in a procedures table.

maximum comfort for patient and phys

ician.

Make your practice efficient with optional programmability.

Our goal is to make your practice more productive. With optional programmability, you can simply program the table to your four favorite positions. With the touch of a single button, it will move quickly and precisely, every time.

The flexibility you need.

Not only can the Midmark 630 be used in Family and General Practice, but also in OB/GYN, Internal Medicine, Dermatology, Plastic Surgery, Colon and Rectal, General Surgery, and other specialties. Optional hospital grade electrical outlets

give you close access to power, regardless of the type of procedure you perform.

Create the optimal procedure room.

Your office reflects the quality of care you provide, and the Midmark 630 establishes the reputation you want. It's as beautiful as it is comfortable.

Complete your procedure room with Midmark's complementary products... procedural lighting, seating, flexible casework and more. We have the products that help you create the most functional and efficient procedure room possible.

Efficient Foot Control with QuickChair™

With an intuitive hand control and revolutionary foot control, the Midmark 630 operates easy and efficiently. The foot control comes with an industry first, QuickChair™ feature, which allows the table to return to a low entry position for the easiest, quickest dismounting available.

** Programmable foot control shown*

Rotation

As office-based settings become equipped with more pieces of equipment and equipment larger in size, such as lasers, rooms are becoming congested. Selecting a procedures table equipped with the rotation option can improve efficiency by allowing the patient to be moved to the equipment, instead of the equipment being moved to the patient.

The simple touch of a pedal (circled in photo) on either side of the table offers 350 degrees of rotation; touch the pedal again to lock the table in place. It's that easy!

Specifications

Patient Load Rating:
450 lb. (204 kg)

Height:
Minimum 19" (48.3 cm)
Maximum 40" (101.6 cm)

Seat Tilt Angle Range:
