## the new equipment cart system with a powerful design

In the medical sector, fuego equipment carts are ideally suited for the mobile and flexible accommodation of smaller equipment, as computer carts, desks with convenient electrical height adjustment, as ergometry carts, occasional carts, etc..

They are also suitable for use in all types of offices and meeting rooms where the elegant fuego carts offer mobile solutions, e.g. for video presentations, as mobile lecterns, as occasional carts, etc..

In addition to high functionality, the exceptional design and discreet colours of fuego equipment carts are also convincing. They are versatile, flexible, very sturdy and offer plentiful storage on a small footprint. Ideal for small rooms or anywhere requiring a large amount of storage in a small space.

**fuego** is protected with a European design patent and offers reliable brand quality at a reasonable price!

## The components:

sturdy and very versatile chassis frame with high-grade quality castors  
front castors lockable and fitted with wall deflectors Ø 65 mm

elegant, steplessly adjustable and tilted desk shelves with roll protection for use, e.g. as mobile desk for lectures, presentations etc.

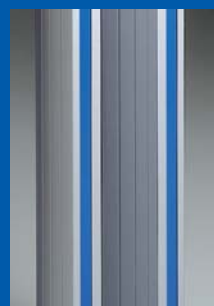

accessories for particular purposes, e.g. as ergometry cart

rear castors fixed, Ø 125 mm; electrically conductive castors available at additional charge

console shelves for small devices with stepless height adjustment

individual design with colour accents in different colour combinations

stable single-support aluminium profile for multiple socket boards, with large integrated cable channel for optimal accommodation of cables

produced as standard with ergonomic pushing handle, high-grade powder-coated RAL 9006 white aluminium

high-quality trays with shaped edge and recessed grip

produced as standard with additional grey plastic cable storage clip, fixed to the rear of the profile
